## SECTION 4: FIRST AID MEASURES

### Description of first aid measures

|              |  |
|--------------|--|
| Inhalation   | Move person to fresh air. If breathing is labored, administer oxygen. If symptoms develop, obtain medical attention.   |
| Skin Contact | Wash affected skin with soap and water. If irritation (redness, rash, blistering) develops, get medical attention. Take off contaminated clothing and wash it before reuse.    |
| Eye Contact  | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| Ingestion    | Do not induce vomiting. Do not give anything by mouth to an unconscious person. Get immediate medical attention.   |

### Most important symptoms and effects, both acute and delayed

May cause drowsiness or dizziness.

### Indication of any immediate medical attention and special treatment needed

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
